SECTION C: OWNERSHIP STRUCTURE AND CAPITAL FLOWS

Data under this section are categorized into the following five tables:

Table C.1: Distribution of Unclaimed Dividend: Data on this table highlights the quantum of unclaimed dividends and unclaimed share certificates in the Nigerian capital market and their distribution/movement between the companies and their registrars. The data were compiled from registrars' quarterly returns to the Securities and Exchange Commission, Nigeria.

Table C.2: Foreign and Domestic Transactions on the Nigerian Stock Exchange: Data in this segment showcases Investors' Transaction Analysis in Equities market on the floor of the Nigerian Stock Exchange on monthly basis. The data are classified into Domestic, Retail and Institutional participation with their counterpart Foreign Portfolio Inflows into the economy. It shows the participants' position at the end of monthly transaction in the market. The data are sourced from the Nigerian Stock Exchange Foreign Portfolio Investment Reports.

Table C.3: Capital Importation by Type of Investment (US\$m) which highlights capital inflows on Foreign Direct Investment, Foreign Portfolio Investments and Other Investments into Nigeria by type of investments. It is sourced from National Bureau of Statistics Capital Importation Report

Table C.4 comprises Capital Importation by Country of Origin (US\$m). It contains Capital inflows into Nigeria from different countries of the world. It is sourced from National Bureau of Statistics Capital Importation Report

Table C.5: Pension Fund Assets by Investment Classes (N'bn): This presents data on allocation and utilization of pension fund assets to various investment classes within and outside the country. The Monthly allocation of pension fund asset ranges from Foreign, Federal, State, Local, Agencies and Corporate Securities to Real Estate Properties, Funds and other assets.

The table below summarizes these tables and their sources:

Table	Table Name	Frequency	Source of entry
C.1	Distribution of Unclaimed Dividends	Quarterly	SEC: Registrars' Returns
C.2	Foreign and Domestic Transactions on the Nigerian Stock Exchange	Monthly	NSE: Foreign Portfolio Investment Report
C.3	Capital Importation by Type of Investment	Quarterly	NBS: Capital Importation Report
C.4	Capital Importation by Country of Origin	Quarterly	NBS: Capital Importation Report
C.5	Pension Fund Assets by Investment Classes	Monthly	PENCOM: Summary of Pension Fund Assets

SECTION D: COMPANIES FINANCIALS

This section contains data extracted from the Statement of Comprehensive Income and Statement of Financial Position of quoted companies in Nigeria. The data are obtained from the quarterly filings of these companies with the Securities and Exchange Commission and the Nigerian Stock Exchange. It contains two tables:

Table D.1 on Selected Items from Comprehensive Income and Financial Position of Quoted Companies. The following should also be noted in using this table: 1) QUARTER: Note that since the Financial-year of different companies can vary, it is possible that a company's Q1 is March while it falls into another month for a different company. 2) NUMBER OF MONTHS: This is the number of months for which a quarter's account is presented. It is usually 3-, 6-, 9- and 12-months for Q1, Q2, Q3 and Q4 respectively. In some few cases however, a company may report 3-months account for Q2 or Q3. 3) TURNOVER/REVENUE/ GROSS EARNINGS/ GROSS PREMIUM INCOME: Turnover/Revenue, Gross Earnings and Gross Premium Income are used to capture the Income of Non-financial firms, Banks and Insurance companies respectively. When 'Gross Earnings' is not supplied by a bank, it is computed as: Gross Earnings = Interest Income + Fee and Commission Income + Net Gain/ (Losses) on Financial

Instruments + Other Income. In this case, the summation may slightly vary from the actual Gross Earnings when a bank presents some of these components in the net form; e.g. 'Net Interest Income' instead of 'Interest Income'.

The table below gives a summary of these tables:

Table	Table Name	Frequency	Source of entry
D.1	Selected Items from Comprehensive Income and Financial Position of Quoted Companies	Quarterly	Quarterly filings of listed companies' financials with SEC and NSE
